NEW AND RARE HARDY PERENNIALS

Grown and Offered by
FRANK KOEHLER, Camden, New Jersey

Part of my present Nursery ground has been sold for building lots and my large stock of Iris will be transplanted to my new Farm nearby. During this time prices on many varieties, as you will notice, are much reduced.

My aim is to improve, introduce and grow only the better kinds of Hardy Plants; besides a general line of good old varieties. Since 1900, those days with the well-known firm Goos and Koenemann, I am in this most interesting hybridizing business. Many good varieties are to my credit—but still I am learning and trying to produce more improvements.

When planting Iris use some lime and bonemeal, but never green manure. Plain coal ashes mixed liberally into the soil also is beneficial. 6 plants at dozen rate; 25 plants at 100 rate.

My New Iris Seedlings

CINDERELLA—Koebler (1924-25). A very tall (at least 3½ feet), strong grower with large size flowers; spreading Falls, rather difficult to describe. Uppers Pearl deepening to buff. Falls light purple shading to lavender, \$5.00 each. \$50.00 per doz. Prepaid.

OBERON—(Koebler 1924-25). A real lavender, giant in growth and size of flowers. Nearing Albert Victor in color. Unfortunately rather slow in propagation. \$5.00 each. \$50.00 per doz. Prepaid.

HELENE KOEHLER—(Koebler 1924). A Lohengrin Seedling of healthy strong growth. Uppers delicate Pink. Falls slightly darker veined, this veining helps to make the delicate color more impressive and superior to other pink varieties. 32 inches high. \$2.50 each. \$25.00 per doz. Prepaid.

ROSEDALE—(Koebler 1923). Strong grower of clear lavender, overlaid Lobelia blue, conspicuous orange beard, distinct in his satiny finish. 3 feet. Late bloomer. \$1.50 each. \$15.00 per doz. Prepaid.

PROF. A. SEELIGER—(Koebler 1923). A tall grower of a distinct deep Wine Red color. 38 inches. A much improved Ed. Michel. \$1.50 each. \$15.00 per doz. Prepaid.

ELBERON—(Koebler 1923). An entirely new shade in deep Red. Very select color, a good size flower of artistic form. 32 inches. Late bloomer. \$2.00 each. \$20.00 per doz. Prepaid.

BELLADONNA—(Koebler 1922). The forerunner of an early plicata. Belladonna blooms regularly and profusely. It is distinct in that its standards are darker than the falls, caused

by a more heavy mottling and striping of purple on the white ground. An excellent and showy variety. Height 32 inches.

RED RIDING HOOD—(Koebler 1922). The nearest approach to red in the Iris family, and for that reason it has a place in the Iris-garden that no other variety can fill. The standards are an reddish lavender, while the falls are purplish softer, with mottlings of brown near the base, the back of the petals pinkish lavender. Greatly admired wherever seen. Height 32 inches.

UNDINE—(Koebler 1922). A very strong grower and very conspicuous among other Pallida varieties. The standards are a lovely shade of deep lavender, while the falls are rich velvety purple. Height 36 inches. Price of the three 1922 seedling 50c. each. \$5.00 per doz. Prepaid.

GOOS & KOENEMANN'S NEW IRIS SEEDLINGS—Offered the first time in this Country

The price on these new 6 varieties is very moderate—to give you a chance to get acquainted with G. & K.'s last creations, which I feel sure soon will be as popular as their former varieties: Loreley, Rhein-Nixe, Nibelungen, Iris King, Flammenschwert, Rheintrabe, Lohengrin, Etc. Price, \$3.00 each. \$30.00 per dozen. 6 plants at dozen rate. The set of 6 varieties, \$15.00, prepaid.

FOLKWANG. In beautiful color blending a wonder of nature, very hard to describe. Fall claret red with conspicuous veinings of brownish yellow and light edging. Standards of lustrous light rose Pink.

ROTA. A descendant of "Dorothy" eclipsing its progenitor by far in luminous power. Standards of bright silky carmine-pink. Falls of a darker tone with distinguishable veinings, but no bordering. Of medium height and very free flowering habit, a brilliant mass-effect in bright sunlight.

RHEINGAUERLE. A striking novelty of wonderful soft rose-pink. The standards being lighter in shade than the falls. The latter are remarkably broad in counter effect with the

straight up dome shaped crown lend distinction and beauty to the flowers.

FORSETE. A one color variety producing dark lavender flowers of Pallida Dalmatica size on unusable free branching stems of from 3 to 4 feet high.

BALDER. Dome Shaped Yellow Olive colored standards with light blush reflex. Falls of dark reddish purple with olive line base. A combination bound to meet with popular favor.

VINGOLF. (Countess Lonyay X Her Majesty). Falls deep velvety violet-blue with light clear cut margins. Standards approaching cream color. The fascinating feature of this novelty is a new beautiful contrast effect in color combination of the single flower.

Add 25c. up to 6 plants; 35c. up to 12 plants; if wanted by mail.

CHOICE IRIS GERMANICA

Including several rare varieties.

NEW AND RARE HARDY PERENNIALS

Grown and Offered by
FRANK KOEHLER, Camden, New Jersey

It was in the year of 1900 that I left my employment at the Royal Gardens of the former German Emperor in Potsdam, and decided to devote my future to Hybridizing work and secured a position with Messrs. Goos and Koenemann, Nieder Walluf on-the-Rhine. Those being better acquainted with this firm will know what wonderful work is done there in Hybridizing and producing new improvements in Perennials, Dahlias, Cannas, etc. After several years of work for noted Specialists in Europe, and U. S. A., I started in business for myself about 15 years ago. One of my favored line are: Iris, I introduced several varieties, especially in the "Pinks and Reds". In this list I offer "Cinderella" and "Oberon". I consider these two real good varieties. My principles are the same as Messrs. Goos and Koenemann had, using only hardy healthy growers which will produce plenty of flowers. In my Hybridizing work I use in a great extent G. & K's varieties because they are on account of their hardiness more adapted to our climate conditions.

My New Iris Seedlings

CINDERELLA—Koehler (1924-25). A very tall (at least 3½ feet), strong grower with large size flowers; spreading Falls, rather difficult to describe—Uppers Pearl deepening to buff. Falls light purple shading to lavender. \$10.00 each. Prepaid.

OBERON—(Koehler 1924-25). A real lavender, giant in growth and size of flowers of Pallida Dalmatica type, nearing Albert Victor in color. Unfortunately rather slow in propagation. \$10.00 each. Prepaid.

HELENE KOEHLER—(Koehler 1924). A Lohengrin Seedling of healthy strong growth. Uppers delicate Pink. Falls slightly darker veined, this veining helps to make the delicate color more impressive and superior to other pink varieties. 32 inches high. \$5.00 each. \$50.00 per doz. Prepaid.

ROSEDALE—(Koehler 1923.) Strong grower of clear lavender, overlaid Lobelia blue, conspicuous orange beard, distinct in his satiny finish. 3 feet. Late bloomer.

PROF. A. SEELIGER—(Koehler 1923). A tall grower of a distinct deep Wine Red color. 38 inches. A much improved Ed. Michel.

ELBERON—(Koehler 1923). An entirely new shade in deep Red. Very select color, a good size flower of artistic form. 32 inches. Late bloomer.

The three 1923 seedlings are good Seed bearers. Price \$3.00 each. \$30.00 per doz. Prepaid 6 plants at doz. rate.

BELLADONNA—(Koehler 1922). The forerunner of an early Plicata. Belladonna blooms regularly and profusely. It is distinct

in that its standards are darker than the falls, caused by a more heavy mottling and striping of purple on the white ground. An excellent and showy variety. Height 32 inches.

RED RIDING HOOD—(Koehler 1922). The nearest approach to red in the Iris family, and for that reason it has a place in the Iris-garden that no other variety can fill. The standards are an reddish lavender, while the falls are purplish solferinored, with mottlings of brown near the base, the back of the petals pinkish lavender. Greatly admired wherever seen. Height 32 inches.

UNDINE—(Koehler 1922). A very strong grower and very conspicuous among other Pallida varieties. The standards are a lovely shade of deep lavender, while the falls are rich velvety purple. Height 36 inches. Price of the three 1922 seedling \$1.00 each. \$10.00 per doz. Prepaid

GOOS & KOENEMANN'S NEW IRIS SEEDLINGS FOR 1925—Conditions of Sale and Prices on Application

FOLKWANG. In beautiful color blending a wonder of nature, very hard to describe. Falls claret red with conspicuous veinings of brownish yellow and light edgings. Standards of lustrous light rose Pink.

ROTA. A descendant of "Dorothy" eclipsing its progenitor by far in luminous power. Standards of bright silky carmine-pink. Falls of a darker tone with distinguishable veinings, but no bordering. Of medium height and very free flowering habit, a brilliant mass-effect in bright sunlight.

RHEINGAUERLE. A striking novelty of a wonderful soft rose-pink. The standards being lighter in shade than the falls. The later are remarkably broad, in countereffect with the straight

up dome shaped crown lend distinction and beauty to the flowers

FORSETE. A one color variety producing dark lavender flowers of Pallida Dalmatica size on unusable free branching stems of from 3 to 4 feet high

BALDER. Dome Shaped Yellow Olive colored standards with light bluish reflex. Falls of dark reddish purple with olive lined base. A combination bound to meet with popular favor.

VINGOLF. A cross between Countess Lonyay and Her Majesty. Falls deep velvety violet-blue with light clear cut margins. Standards approaching cream color. The fascinating feature of this novelty is a new beautiful contrast effect in color combination of the single flower.
